

WORLD ASSOCIATION FOR THE PROTECTION OF TANGIBLE AND INTANGIBLE
CULTURAL HERITAGE IN TIMES OF ARMED CONFLICT

It is with deep sorrow that we learned that Architect Gunan Danisman passed away on 17 January 2009.

A professor at the Boğaziçi Üniversitesi in Istanbul, Gunan Danisman was a very active member of UIA (International Union of Architects).

A very well reputed partner within the EC Euromed Heritage II programme network, he was an ardent promoter of intercultural dialogue, understanding and mutual respect.

Whoever had the privilege to meet him experienced his professional talent and his human qualities as an elected member of WATCH Board of Trustees since 2007, Gunan also was entrusted with the task of promoting External Affairs.

Within this framework he contributed to the institutional construction of the association.

With this, we would like to express our sincere condolences and deepest sympathies to his Family and all his loved ones.

Gunan was a beloved colleague and good friend whose zest for life became his hallmark and one that will remain in our hearts and memories forever.
